### Important!

Confirm your account registration by clicking on the registration confirmation sent to the email address submitted on the form.

### 2. Log in to the platform with your registration data

<https://erasmusplatforms.wsb.edu.pl/?lang=en> and sign up for an predisposition test:

<https://erasmusplatforms.wsb.edu.pl/course/view.php?id=18> by a self-recording password:

**DataScientist24**

3. Select the relevant category for the application for Master in Computer Science – Data Scientist choose the DATA SCIENTIST tab to expand it and then click on the “Predisposition Tests”.  
For all faculties in Master in Management choose the STUDIES IN A BUSINESS tab to expand it and then click on the “Predisposition Tests”.

Dear Candidate, We encourage you to take the placement test as it helps us assess your current knowledge and skills in computer science. This ensures that you are placed in study program that match your proficiency level, providing you with the best possible learning experience. By taking the test, you can avoid redundant coursework and focus on areas that will challenge and develop your abilities, ultimately enhancing your educational journey.
